Our Mission ~ The mission of Recovery Alliance is to bring together cross-sectors of the recovery community and society, and facilitate them working collectively to find solutions for the best way to encourage lifelong recovery for those suffering from substance use abuse. The summit serves as an opportunity to educate the organizations/sectors on one another, their missions and resources. The leaders can then identify gaps as well as cross-overs in what they do, and the work to strengthen the effectiveness of the groups as a whole in working in the best interest of the recovering individual and society.
